optional features and dimensional data

# PKV

## V-PLOW SNOWPLOW

## STANDARD EQUIPMENT

Lifting single-acting hydraulic cylinder

Hardox steel cutting edge

Neoprene bumpers to provide impact protection

Quick coupling mechanical support

High beams

N. 2 double acting hydraulic cylinders to open/close the blade

# V-PLOW SNOWPLOW PKV

## OPTIONAL FEATURES

**Led lights with extendable mobile support**

**Neoprene scraping knife**

**Bipolar electric cable**  
for electrical connection to the vehicle battery

**12 Volt electrohydraulic unit push-button panel**

**Kit complete with blade attachment**  
for 4x4 mini-trucks of the VEM Italia

**Kit complete with blade attachment**  
for Mitsubishi L200 series Pick-Up

## TECHNICAL SHEET

### MAIN FEATURES

CODE	MODEL	WEIGHT		WIDTH	HEIGHT	WORKING WIDTH
		without electro hydraulic power unit	with electro hydraulic power unit			
5030111	PKV V-PLOUGH FOR PICK-UP	187 kg	207 kg	1,9 mt	0,6 mt	1,85 mt

#### 1. Classification

Snowplough for pick-up and trucks cat. N1 with PTT ≤ 3000 kg.

#### 2. Operation

Hydraulic, with hydraulic cylinders, on the one hand, for right and left orienting and on the other hand, for down and falling movement of the snowplough.

#### 3. Energy source

It is possible to install a 12 V electro hydraulic central unit on the snowplough (supplement). In alternative, you can choose a specific hydraulic system realized on the vehicle..

#### 4. Commands for the movement

Radio remote control (it's an integral part of the electro hydraulic central unit). In alternative, remote control with cable (if you have as energy source the specific hydraulic system realized on the vehicle).

#### 5. Accessories: standard version

Mechanical support for quick coupling (this support will be installed by our operators), blade in stainless steel, flag unit, auxiliary spotlight kit and parking feet, N°2 cylinder for open wings, n°1 cylinder for lifting.

#### 6. Optional features

Led side clearance light, aileron in stainless steel, electro hydraulic central unit 12 V with radio remote control, bipolar cable complete of protection fuse for connection of the central unit to the vehicle battery, blade in Vulkollan, complete attachment kit for pick-up and 4x4 mini- trucks.
